Audit Checklist

Coal Operation Contractor Management Plans
Desktop Assessment Program 2008

COA-015

May 2008
DISCLAIMER

The compilation of information contained in this document relies upon material and data derived from a number of third party sources and is intended as a guide only in devising risk and safety management systems for the working of mines and is not designed to replace or be used instead of an appropriately designed safety management plan for each individual mine. Users should rely on their own advice, skills and experience in applying risk and safety management systems in individual workplaces.

Use of this document does not relieve the user (or a person on whose behalf it is used) of any obligation or duty that might arise under any legislation (including the Occupational Health & Safety Act 2000, any other Act containing requirements relating to mine safety and any regulations and rules under those Acts) covering the activities to which this document has been or is to be applied.

The information in this document is provided voluntarily and for information purposes only. The New South Wales Government does not guarantee that the information is complete, current or correct and accepts no responsibility for unsuitable or inaccurate material that may be encountered.

Unless otherwise stated, the authorised version of all reports, guides, data and other information should be sourced from official printed versions of the agency directly. Neither the Department of Primary Industries, the New South Wales Government, nor any employee or agent of the Department, nor any author of or contributor to this document produced by the Department shall be responsible or liable for any loss, damage, personal injury or death howsoever caused.

Users should always verify historical material by making and relying upon their own separate inquiries prior to making any important decisions or taking any action on the basis of this information.
Desktop Assessment Worksheet

INSTRUCTIONS FOR USE

This Worksheet is designed for use in DPIs Contractor Management Desktop Assessment Program 2008.

Column 1 – Assessment Criteria
The Criteria are drawn from the Contractor Management Compliance Audit Checklist. The Checklist includes an Evidence Guide for all criteria. Part (a) of the Evidence Guide for each criterion indicates coal operation documents which may be relevant to the desktop assessment of compliance with that criterion.

Column 2 - Assessment
The numerical assessment score should be recorded in Column 2. The Assessment Scoring scale for all assessment criteria is as follows:

<table>
<thead>
<tr>
<th></th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Not applicable</td>
</tr>
<tr>
<td>2</td>
<td>Does not comply</td>
</tr>
<tr>
<td>3</td>
<td>Partly complies</td>
</tr>
<tr>
<td>4</td>
<td>Fully complies</td>
</tr>
</tbody>
</table>

audit criterion refers to a hazards/issue not present at the coal operation
no evidence that HSMS documentation and work activities address the audit criterion
audit criterion not addressed in all relevant areas and at all relevant times
audit criterion fully addressed in all relevant areas and at all relevant times

Column 3 – Relevant Coal Operation Documents
The title and identifying references (document number and/or date of issue) of all documents cited during the desktop assessment of each criteria should be recorded in this column.

Column 4 – Comments
Comments regarding the extent and nature of compliance and non-compliance with assessment criteria should be recorded in this column. This may include:
- Areas/Issues in which the documents reviewed indicate full or partial non-compliance with the assessment criteria.
- Areas/Issues for which relevant documents were not available at the desktop assessment field visit, and/or do not appear to be created or stored by the coal operation;
- Any other comments indicating the justification for the assessment score.

Assessment Database
All information recorded on this Worksheet during the desktop assessment should be entered into the Assessment Database.

### 2. Consultation on Contractor Management Plan
The operator’s Contractor Management Plan was developed in consultation with relevant workers.

### 3. Pre-engagement assessment of contractors
The operator assesses the health & safety management arrangements of proposed contractors before they are engaged; including:
- health & safety management arrangements; and
- competence of contractor employees and subcontractors; and
- suitability of equipment, materials and substances.
### 4. Pre-commencement consultation with contractors

Before relevant contractors commence work, they are consulted to ensure they are familiar with the operator’s Contractor Management Plan, and parts of the operator’s HSMS relevant to the contractors’ work.

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### 5. Contractor Safe Work Method Statements

Before relevant contractors commence work, they have provided the Operator with a copy of the Safe Work Method Statement for the contractors’ work, which:
- describes how work is to be carried out, and
- identifies the work activities assessed as having safety and health risks, and
- identifies the safety and health risks, and
- describes the risk control measures that will be applied to the work activities

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
6. Contractor’s OHS Management Plan

Before relevant contractor’s commences work, the Operator has obtained a copy of the contractors site-specific OHS Management Plan, which includes:-
- the names, positions and specific OHS responsibilities of persons in relation to the contractor's work, and
- the arrangements for managing OHS incidents, including the means of informing the Operator in a timely fashion, and
- any work specific safety rules that apply to the contractor's work and arrangements for ensuring that all persons involved in the work are informed of the rules, and
- safe work method statements for all work activities assessed as having safety or health risks.

Note: “relevant contractors” include:-
- contractors undertaking high risk activities as defined in CMHS Act clause 49,
- blast contractors at an open cut coal operation.
### 7. Site Induction of Contractors

Before relevant contractors commence work, the Operator conducts site-specific induction training/briefings for the contractor, and all sub-contractors and employees.

### 8. Monitoring of Contractors

The Operator monitors the work activities of contractors to ensure their work activities are carried out in accordance with:
- the contractors’ Safe Work Method Statement(s);
- parts of the Operator’s HSMS relevant to the contractors’ work activities; and
- relevant OHS and CMHS Act & Regulation provisions.
