

# INFORMATION FOR PRESENTERS

## Mining Engineering Managers' Safety Seminar 2022

The NSW Resources Regulator is seeking experienced and enthusiastic presenters for our second Mining Engineering Managers' Safety Seminar on 12 and 13 October 2022 at Sofitel Sydney Wentworth, Sydney.

### Share your ideas and knowledge

This is an excellent opportunity for individuals to share their experience, insights and learnings with mining engineering managers (MEMs) from across the NSW mining industry. Presenters will need to deliver informative, educational and practical presentations matched to audience needs and levels of experience on issues related to risks to health and safety in the mining industry and measures to control those risks.

Presentations can address the following:

- WHS lessons learnt from significant incidents
- WHS practices/standards improvement or innovation
- WHS related technology update, advancement or emergence
- WHS related educational material including WHS practices/standards, general management and mental wellbeing.

If you wish to discuss a potential topic, email [rr.workshops@planning.nsw.gov.au](mailto:rr.workshops@planning.nsw.gov.au) or contact Anthony Margetts on 0477 326 864 directly.

### Presentation format

- Attendees will attend in person, however online delivery may be possible for speakers where travel restrictions exist. Presenters unable to travel to Australia will be able to present to the seminar virtually (Zoom).
- Length of presentations can be either 30 minutes or 60 minutes, inclusive of question time.

- PowerPoint slideshows and/or other audio-visual materials such as video and animation are welcome and interactive, case-study based formats are highly encouraged. If you have specific requirements, please advise the team early to ensure the venue can meet your requirements.

## Content

- This event is intended to improve the awareness of issues that affect mining engineering safety within the mining industry.
- Presentations must not include brand promotion or sales pitches.
- Where the solution involves a product or service, care must be taken not to denigrate other products or services. The presenter may speak to the technical merits of a particular product or service, but a balanced and impartial analysis of the issues should always be given.

## Submit an expression of interest

If you are interested in being a presenter, please complete an application form and send it with your attached abstract to [rr.workshops@planning.nsw.gov.au](mailto:rr.workshops@planning.nsw.gov.au) no later than 5pm on 13 May 2022.

## Application process

All written applications will be reviewed by the NSW Resources Regulator's mining engineering inspectors.

The individual applications and the overall mix of presentations will be used to determine which applications are successful. The seminar convenor will inform applicants of the outcome of their application via email by 27 May 2022.

In some circumstances, a presenter may be notified that their application is successful earlier than this date. If a presentation is unlikely to be accepted, feedback will be provided to the applicant.

If your application to present is not successful you can appeal the decision by emailing [mine.safety@planning.nsw.gov.au](mailto:mine.safety@planning.nsw.gov.au) with the reasons for your appeal.

## More information

If you would like more information about this opportunity or have any questions, please contact [rr.workshops@planning.nsw.gov.au](mailto:rr.workshops@planning.nsw.gov.au).
