

# MECHANICAL ENGINEER OF COAL MINES OTHER THAN UNDERGROUND MINES

## Prerequisites and written examination details

### 1. Prerequisites

An application for examination must be accompanied by evidence that you have the following:

PREREQUISITE	REQUIREMENT
Tertiary or vocational qualification	<p>Any one of the following:</p> <ul style="list-style-type: none"><li>• Bachelor of Engineering (Mechanical Engineering) issued by an Australian university, or</li><li>• Bachelor of Engineering issued by an Australian university in the following areas of practice (or equivalent):<ul style="list-style-type: none"><li>mechatronics</li><li>manufacturing</li><li>maintenance</li><li>aeronautical</li><li>avionics</li><li>refrigeration</li><li>automotive</li></ul></li></ul> <p>and, eligible to be registered as an Engineer in the Engineering Australia Mechanical college by Engineers Australia.</p> <ul style="list-style-type: none"><li>■ MEM60112 Advanced Diploma of Engineering (Mechanical) issued by a registered training organisation (an equivalent</li></ul>

PREREQUISITE	REQUIREMENT
	<p>qualification issued with a superseded course number is acceptable), or</p> <ul style="list-style-type: none"> <li>■ Associate Diploma of Engineering (Mechanical Engineering) issued by a registered training organisation (an equivalent qualification issued with a superseded course number is acceptable).</li> </ul> <p>If you hold a qualification/unit of competence that is not specified as a prerequisite, refer to <a href="#">Fact sheet - Recognition of qualifications and units of competence</a>.</p>
<p>Practical experience</p>	<p>A minimum 4 years* practical coal mine other than underground experience, including:</p> <ul style="list-style-type: none"> <li>■ a minimum 2 continuous years involved in the installation, commissioning, maintenance and repair of mechanical plant (this must be included in the four years of experience above), and             <ul style="list-style-type: none"> <li>□ within that 2 years' experience, one year must involve mechanical plant:                     <ul style="list-style-type: none"> <li>● for a minimum of 6 months at an extraction face during production or development works and</li> <li>● during other mining activities</li> </ul> </li> </ul> </li> <li>■ a minimum one year in a supervisory role responsible for the control and management of mechanical plant at a coal mine other than underground</li> </ul> <p>*In the 4 years of experience, up to one year in any other class of mine and one year working as a mechanical engineer in another industry may be included.</p> <p>Your experience must be verifiable and/or signed off by your supervising manager who holds a Mechanical Engineer of mines other than underground mines practising certificate.</p>

PREREQUISITE	REQUIREMENT
Emergency preparedness unit of competence	<p>RIIERR601E Establish and maintain mine emergency preparedness and response systems, issued by a registered training organisation (the superseded units RIIERR601D and RIIERR601A Establish and maintain mine emergency preparedness and response systems, or other equivalent superseded unit number is acceptable).</p> <p>If you hold a qualification/unit of competence that is not specified as a prerequisite, refer to <a href="#">Fact sheet - Recognition of qualifications and units of competence</a>.</p>
Portfolio of evidence	<p>You must attach the following documents as evidence of your competence:</p> <ol style="list-style-type: none"> <li>1. Risk assessment – a copy of a WHS risk assessment that you were involved in at your mine during the past 3 years</li> <li>2. Workplace inspection - a copy of a WHS workplace inspection, task observation or audit, that you carried out and documented for your mine in the past 3 years</li> <li>3. Review of principle hazard management plan or control plan – evidence, such as a report, of your involvement in reviewing a principal hazard management plan or control plan at your mine</li> <li>4. Shift handover report, shift work plan or compliance report- a copy of a WHS shift handover report, shift work plan or compliance report that you completed in the past 6 months</li> <li>5. Delivery of workplace training program (may include mentoring or coaching) - evidence of a WHS related training program in a mining or related field that you were involved in developing and delivering for workers in full or part of it at your mine (e.g. toolbox talks, shift or work group briefings)</li> <li>6. Safe work procedure or related document for standard setting - a copy of a safe work procedure or related document for standard setting (e.g. work instruction, work order job detail) that you actioned at your mine during the past 3 years</li> </ol> <p>For more information about portfolio requirements refer to the <a href="#">Portfolio requirements: certificate of competence examination process</a>.</p>
Identity verification	Refer to the <a href="#">Fact sheet: Certifying documents and verifying identity</a> .

## 2. Written examination details

The written examination consists of the following papers:

PAPER	METHOD OF EXAMINATION	DURATION OF PAPER
CME3 – Safety and mining legislation for open-cut mines	Closed book	2.5 hours

### 2.1. CME3 – Safety and mining legislation for open-cut mines

This paper will deal with the interpretation and application of mining and engineering principles and Australian Standards together with relevant aspects of mining legislation. You will be expected to have a working knowledge of:

- safe working procedures and the causes and prevention of mine incidents
- identification and management of mechanical hazards for different mining operations
- maintenance and operation of mechanical plant and structures regularly used at that type of mine.

You will be required to demonstrate a working knowledge of the *Work Health and Safety Act 2011*, *Work Health and Safety (Mines and Petroleum Sites) Act 2013*, and their supporting Regulations, as they relate to the duties of a mechanical engineer of coal mines other than underground coal mines. You will also be required to:

- understand the implications and management of gazettal notices related to the mechanical engineering aspects of coal mines.
- know all the legislative requirements for the role, and the specific requirements for the Mechanical Engineering Control Plan for that type of mine
- demonstrate a working knowledge on key Australia Standards applicable to coal mining.
