

MINING ENGINEERING MANAGER OF COAL MINES OTHER THAN UNDERGROUND MINES

Prerequisites and written examination details

1. Prerequisites

An application for examination must be accompanied by evidence that you have the following:

PREREQUISITE	REQUIREMENT
Tertiary or vocational qualification	<p>Any one of the following:</p> <ul style="list-style-type: none"> ■ Bachelor of Mining Engineering issued by an Australian university, or ■ RII50120 Diploma of Surface Operations Management issued by a registered training organisation (the superseded qualifications RII50115 & RII50113 Diploma of Surface Operations Management, or other equivalent superseded qualification is acceptable). ■ RII60720 Advanced Diploma of Surface Coal Mining Management and any superseded equivalent version. <p>If you hold a qualification that is not specified as a prerequisite, refer to Fact sheet - Recognition of qualifications and units of competence.</p>
Practical experience (refer to appendix B for guidance)	<p>A minimum of 5 years* practical coal mine other than underground experience, including:</p> <ul style="list-style-type: none"> ■ a minimum 3 years being present:

PREREQUISITE	REQUIREMENT
	<ul style="list-style-type: none"> ▣ with a minimum 1 year in a production area involving the extraction of waste or coal associated activities and ▣ during other mining activities related to the extraction of waste or coal <p>(this must be included in the 5 years of experience above)</p> <ul style="list-style-type: none"> ■ a minimum two years in a supervisory role responsible for the control and management of coal mining operations other than underground, with minimum 1 year fulfilling the functions of an Open Cut Examiner at the mine. <p>* In the 5 years of experience, up to one year working in any other class of mine may be included.</p> <p>Your experience must be verifiable and/or signed off by your supervising manager who holds a Mining Engineering Manager of coal mines other than underground mines practising certificate.</p>
<p>Emergency preparedness unit of competence</p>	<p>RIIERR601E Establish and maintain mine emergency preparedness and response systems, issued by a registered training organisation</p> <p>*The superseded units RIIERR601D and RIIERR601A Establish and maintain mine emergency preparedness and response systems, or other equivalent superseded unit number is acceptable.</p> <p>If you hold a qualification/unit of competence that is not specified as a prerequisite, refer to Fact sheet - Recognition of qualifications and units of competence.</p>
<p>Portfolio of evidence</p>	<p>You must attach the following documents as evidence of your competence:</p> <ol style="list-style-type: none"> 1. Risk assessment – a copy of a WHS risk assessment that you were involved in at your mine during the past 3 years 2. Workplace inspection - a copy of a WHS workplace inspection, task observation or audit, that you carried out and documented for your mine in the past 3 years

PREREQUISITE	REQUIREMENT
	<ol style="list-style-type: none"> 3. Review of principle hazard management plan or control plan – evidence, such as a report, of your involvement in reviewing a principal hazard management plan or control plan at your mine 4. Shift handover report, shift work plan or compliance report- a copy of a WHS shift handover report, shift work plan or compliance report that you completed in the last six months 5. Delivery of workplace training program (may include mentoring or coaching) - evidence of a WHS related training program in a mining or related field that you were involved in developing and delivering for workers in full or part of it at your mine (e.g. toolbox talks, shift or work group briefings) 6. Safe work procedure or related document for standard setting - a copy of a safe work procedure or related document for standard setting (e.g. work instruction, work order job detail) that you actioned at your mine during the past 3 years <p>For more information about portfolio requirements refer to the Portfolio requirements: certificate of competence examination process.</p>

Identity verification

Refer to the [Fact sheet: Certifying documents and verifying identity](#).

2. Written examination details

The written examination consists of the following papers:

PAPER	METHOD OF EXAMINATION	DURATION OF PAPER
OCM1 – Legislation	Closed book	1 hour
OCM2 – Open cut mining practice	Closed book	3 hours

2.1. OCM1 – Legislation

You will be required to demonstrate a working knowledge of the *Work Health and Safety Act 2011*, *Work Health and Safety (Mines and Petroleum Sites) Act 2013*, *Explosives Act 2003*, and their supporting

Regulations, as they relate to the duties of a mining engineering manager. You will also be required to demonstrate a working knowledge on key Standards and guidelines applicable to surface coal mining.

2.2. OCM2 – Open cut mining practice

This paper will deal with the interpretation and application of mining and engineering principles together with relevant aspects of mining legislation. You will be expected to have knowledge of the mining environment and associated risk, safe working procedures and the causes and prevention of mine incidents.
