

UNDERMANAGER OF UNDERGROUND COAL MINES

Prerequisites and written examination details

1. Prerequisites

An application for examination must be accompanied by evidence that you have the following:

PREREQUISITE	REQUIREMENT
Tertiary or vocational qualification	<p>Any one of the following:</p> <ul style="list-style-type: none"> ■ Bachelor of Mining Engineering issued by an Australian university, or ■ RII50920 Diploma of Underground Coal Mining Management issued by a registered training organisation (the superseded qualifications RII50915 & RII50913 Diploma of Underground Coal Mining Management, or other equivalent superseded qualification is acceptable). <p>If you hold a qualification/unit of competence that is not specified as a prerequisite, refer to Fact sheet - Recognition of qualifications and units of competence.</p>
Practical experience	<p>A minimum of 4 years practical underground coal mine experience, including:</p> <ul style="list-style-type: none"> ■ a minimum 2 years being present: <ul style="list-style-type: none"> □ with a minimum 1 year at an extraction face during production or development works, and

PREREQUISITE	REQUIREMENT
	<ul style="list-style-type: none"> □ during other mining activities <p>(this must be included in the 4 years of experience required above)</p> <ul style="list-style-type: none"> ■ a minimum 1 year in a supervisory role responsible for the control and management of underground coal mining operations, with a minimum 6 months in mining activities at the mine. <p>Your experience must be verifiable and/or signed off by your supervising manager who holds a Mining Engineering Manager of underground coal mines practising certificate.</p>
<p>Emergency preparedness unit</p>	<p>RIIERR501E Implement underground coal mine emergency preparedness and response systems, issued by a registered training organisation</p> <p>*The superseded units RIIERR501D & RIIERR501A Implement underground coal mine emergency preparedness and response systems, or other equivalent superseded unit number is acceptable.</p> <p>If you hold a qualification/unit of competence that is not specified as a prerequisite, refer to Fact sheet - Recognition of qualifications and units of competence.</p>
<p>Portfolio of evidence</p>	<p>You must attach the following documents as evidence of your competence:</p> <ol style="list-style-type: none"> 1. Risk assessment - a copy of a WHS risk assessment that you were involved in at your mine during the past 3 years 2. Workplace inspection - a copy of a WHS workplace inspection, task observation or audit, that you carried out and documented for your mine in the past 3 years 3. Review of principle hazard management plan or control plan - evidence, such as a report, of your involvement in reviewing a principal hazard management plan or control plan at your mine 4. Shift handover report, shift work plan or compliance report - a copy of a WHS shift handover report, shift work plan or compliance report that you completed in the past 6 months 5. Delivery of workplace training program - evidence of a WHS related training program in a mining or related field that you were

PREREQUISITE	REQUIREMENT
	<p>involved in developing and delivering for workers in full or part of it at your mine (eg. toolbox talks, shift or work group briefings)</p> <p>6. Safe work procedure or related document for standard setting - a copy of a safe work procedure or related document for standard setting (eg. work instruction, work order job detail) that you actioned at your mine during the past 3 years</p> <p>For more information about portfolio requirements refer to the Portfolio requirements: certificate of competence examination process.</p>

Identity verification

Refer to the [Fact sheet: Certifying documents and verifying identity](#).

2. Written examination details

The written examination consists of the following papers:

PAPER	METHOD OF EXAMINATION	DURATION OF PAPER
UB1 - Legislation	Closed book	1 hour
UB2 - Mine ventilation	Closed book	2 hours
UB3 - Coal mining practice	Closed book	3 hours

2.1. UB1 – Legislation

You will be required to demonstrate a working knowledge of the *Work Health and Safety Act 2011*, *Work Health and Safety (Mines and Petroleum Sites) Act 2013*, *Explosives Act 2003*, and their supporting Regulations, as they relate to the duties of an undermanager.

2.2. UB2 – Mine ventilation

You will be required to provide answers to practical problems having regard to safety considerations and legal requirements using mine plans supplied.

One question will be based on overall ventilation of a mine relative to the environment described in the question. The other question will be a combination of practical application of ventilation-related management systems and providing solutions to ventilation-related problems.

You will need to demonstrate your knowledge of where equipment is located according to ventilation requirements and what actions are performed to comply with legislative obligations. You will need to make certain assumptions about the mining workplace to answer the questions and provide an explanation as to how the assumptions relate to the mining workplace described in the question.

2.3. UB3 – Coal mining practice

This paper will deal with the interpretation and application of mining and engineering principles together with relevant aspects of mining legislation. You will be expected to have knowledge of safe working procedures and the causes and prevention of mine incidents.
