Transitional provisions

CCAA believes that as drafted, the provisions require members to prepare two long-term management strategies where an SSD application is pending approval.

Where applications are pending approval, CCAA encourages the Regulator to consider transitional provisions that provide flexibility and power for the Minister to grant exemptions or extensions.

Remove duplication

Industry has maintained long-held concerns about the level of duplication and delineation between the functions of the Regulator and DPIE.

We request that clearer delineation exists between planning consents and mining leases, so that compliance administration is more clearly defined and that the responsibilities between DPIE and the Resource Regulator are made perfectly clear.———
